“Plant to a Plan”

It is our aim to have the trees, plants and shrubs purchased by our patrons, so placed in their gardens as to give maximum effect and satisfaction. Our Landscape Department, which is in the hands of experienced Landscape Architects, is prepared to submit plans and estimates at cost for landscaping large or small gardens.

OFFICE
526 POWELL STREET
SAN FRANCISCO, CALIF.

VISITORS INVITED: Our nursery is on the State Highway at Palo Alto and is open at all times for the inspection of our patrons. We believe that intelligent selection is facilitated by actually seeing the plants.

ARRANGEMENT: In listing ornamentals we have subdivided into several classes Conifers, Broad Leaved Evergreens, Deciduous trees and shrubs, arrangement being made by botanical names. This applies both to the genera included in each division and the species under each genus. Where common names were well known we have used them.

BALLED: Burlap is tightly wrapped around medium sized evergreens when they are balled. It is advisable to plant the burlap without removing the rope. After planting pack the dirt down and cut the rope.

ESTABLISHED. This term is applied to plants which have been boxed and made a safe root growth.
